ABOUT US

VENUS Safety & Health Pvt. Ltd. is a global quality manufacturer of Personal Protective Equipment (PPE) and filtration product

Venus has grown manifold in volume and revenues since its inception in year 1986.

A continuous urge to improve the performance of existing products and the development of new products is a driving force for our experienced team of professionals. The combination of various distinctive attributes of Venus has helped it to stay ahead in the competitive industry and provide 100% Made in India quality products to the people of the nation. We are the manufacturer of Personal Protective Equipment (PPE) and many other health and safety products.

We have 3 manufacturing facilities in India with a workforce of 2000+, which enables us to provide the best quality products to India with a QMS certification of ISO 9001:2015 & ISO 13485:2016.

We have 13+ ISI licensed certified products, 50+ CE products, and 25+ NIOSH products. Venus has been exporting for the last 25 years to 35+ countries and has sales reps in the USA, EU, and the UAE.

We primarily operate in 3 Division:

▲ Industrial Safety (IS) Division

For over 30 years, we have been a specialist in industrial PPE, Body protection with over 150 channel partners across India, mainly with large customer segments viz. Railways, Cement, Agro, Ceramics, Construction, Tyre manufacturing, Food & Beverages, Heavy Engineering, Mining, Pharmaceuticals, etc.

▲ Medical and Health Division

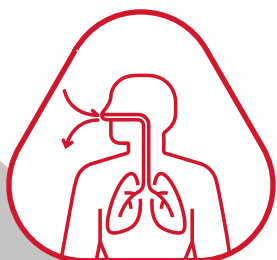

Supplier of N95 respirators for the State Government Medical Services during the COVID-19 pandemic and GOI. We have established a network of 100+ distributors across PAN India and launched the New Venus PAPR, which will be the first ISI-approved PAPR manufactured in India for surgeon. Moreover we have launched our new range of surgical drapes and gowns:

▲ Air Filtration Division

Venus started manufacturing of Filters for HVAC systems in 2023 and has a variety of products to offer. These filters are being used by customers in applications like Surface finishing technology, Clean rooms, Turbo machinery, Nuclear application, Precision manufacturing etc.

PRODUCT RANGE

**Respiratory Protective
Devices (RPD)**

**Noise Protective
Devices (NPD)**

**Eye Protective
Devices (EPD)**

**Head Protective
Devices (HPD)**

High protection & Best comfort.

- Full foam seal for leak-proof comfortable fit
- Adjustable nose clip to provides leak-proof fit
- Variety of strap types and attachments
- *Available with Carbon filter mask for nuisance level organic vapor relief.

VENUS RPD914P100 - TC-84A-7887

Convex Mesh - Large filter style
 Protection: Oil based particles
 M.U.L: Upto 30 x OEL
 Net reinforced shell | Full foam seal

VENUS V-2735 SLOV-V*

Convex - Large filter style
 Protection: Solid Dust / Oil Mist / Nuisance level of odour
 M.U.L: Upto 30 x OEL
 Activated Carbon layer | Flame retardant outer layer

***Note:**
 This respirator offers nuisance level relief from organic vapor / acid gas that are below OEL. Nuisance level refers to concentrations not exceeding OEL.

Ordering Information

Item #	Description	Colour	Elastic	Packing
150264701	Venus RPD914P100 Class: P100 - Valved.	WHITE	WELDED	5 Pcs/pack
150265601	Venus V-2735 SLOV-V Class: FFP3 NR D - Valved.	GREY	WELDED	5 Pcs/pack

APPLICATION EXAMPLES

Chemical Automobile

Material handling, Material processing
 Painting, Powder coating, Welding,
 Maintenance work

Battery Pharmaceuticals Ceramics

Lead handling
 Bulk drugs, Material handling
 Material mixing

Metal Fabrication Agriculture Engineering

Soldering, Welding, Metal pouring, Smelting
 Pesticides, Insecticide spraying
 Welding, Sand blasting, Buffing, Powder coating
 Painting, Cutting
 Maintenance

Effluent Treatment Plant

Always follow the appropriate user and donning instructions for the specific model.

Multilingual User instructions

For easy acceptance by different wearers

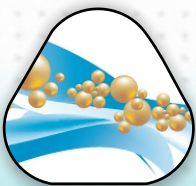

FITTING INSTRUCTION TO BE FOLLOWED EACH TIME RESPIRATOR IN USE

Before use check for visible damage, Damaged or dirty (on breathing side) particle filtering half mask should not be used.

- Cup the mask in hand
- With nose clip up, cover mouth & nose with mask
- Position elastic straps to back of head & neck
- Tighten the head and neck straps as necessary
- Press adjustable nose clip to prevent leakage
- To check fit, place both hands completely over the mask and inhale. if air leaks around nose, readjust the nose clip. if air leaks at the mask edges, work the straps back along th sides of your head. Repeat the procedure until respirator is sealed properly.

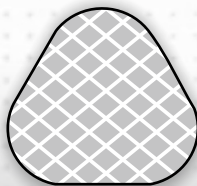

If you can not achieve a proper fit DO NOT enter the contaminate area. See your supervisor.

Features:

Anti Clogging (NR D)

Having passed dolomite test, it resists clogging even in high dust environments

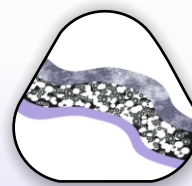

Net Reinforced Shell

Well-integrated structure maintains the shape, disallowing collapse
Suitable for rough handling

Stay cool butterfly vent valve

Provides breathing comfort and promotes easy communication
Effectively removes heat build-up
Transparent vent valve

Activated carbon

For absorption of nuisance level of obnoxious odour and vapour

Outer flame retardant layer

Protects from welding sparks

Disposable Respirators

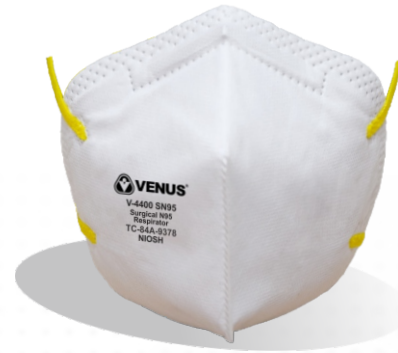

(FFR) - ACE SERIES

VENUS V-4400 N95 - TC-84A-8126

Flat fold style

Protection: Non oil based particles

VENUS V-4400 SN95 - TC-84A-9378

Flat fold style

Protection: Non oil based particles

Note: Fluid resistance conforms to ASTM F1862 at 120mmHg.

VENUS V-4200 N95 - TC-84A-8112

Flat fold - Large filter style

Protection: Non oil based particles

Exhalation vent valve

VENUS CN95 OV - TC-84A-5632

Convex cup seam style

Protection: Non oil based particles &

Nuisance level of Odour Activated Carbon layer

***Note:**

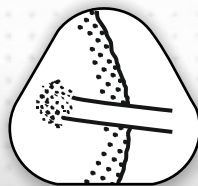

This respirator offers nuisance level relief from organic vapor / acid gas that are below OEL. Nuisance level refers to concentrations not exceeding OEL.

Features:

Flat fold mask

Stylish universal design which gives better visibility to user
Easy to pocket store when not in use

Welded head strap

Provides leakproof and optimum comfort

Stay cool butterfly vent valve

Provides breathing comfort and promotes easy communication
Effectively removes heat build-up
Transparent vent valve

Elastic Sewn outside filter area

Sewn head strap provides better pull strength

Superior technology micro-fine filter media

Made from special engineered fabrics which are extremely easy to breathe but also provide higher protection up to 0.3 micron

VENUS RPD513N95 - TC-84A-7872

Convex double shell style
 Protection: Non oil based particles
 Nose liner

VENUS RPD514N95 - TC-84A-7873

Convex double shell style
 Protection: Non oil based particles
 Nose liner

Optical Radiation - Sources

Common Eye hazards?

Types of materials & Breakage test

Terms

Hard Coating for preventing scratches

It is applied to the exterior of the lens to minimize the likelihood of accidental scratching. This does not make the lens scratch proof, but helps in tremendously reducing fine hair line scratches.

Anti Fog

Prevent to condensation of moisture.

Bridge

It is the part of a frame that connects the two lenses and goes over the nose. The bridge can be either decorative or simple.

Frame

It is the part of the holds the lens. Frame can be made of plastic or memory retention nylon.

INDUSTRIAL SAFETY HELMETS

Protection against falling debris, bumps and electrical hazards

This product meets
ANSI/ISEA Z89.1:2014 standard.
